Subject: RE: Malouf Loans in California & Montana

162029 was transferred to WULA in June and 161639 should be in Old Standard.

Met #162029, Ocwen #900592:

The California loan is currently held by Metwest. The worksheet stated that it would be assigned to WULA. However, Rosie Bacon stated that you stated that the loan should remain in Metwest and not be assigned to WULA. Would you please confirm that this should be in Metwest rather than WULA and advise. Ocwen's records indicate that they have it set up under WULA.

Met #161639, Ocwen #900565:

This is the Montana loan. The Mortgage was originally to Summit and we have an unrecorded assignment from Summit to Old Standard. Please verify that this should be held by Old Standard and advise of same.

As you know, we are starting legal action on both of these loans and need this information confirmed ASAP.

Thank you,

Celeste Maki
